

UNIVERSITÀ
DEGLI STUDI DELLA
TUSCIA

Swedish University of
Agricultural Sciences

SUMMER SCHOOL DESIGN OF SUSTAINABLE FOOD SYSTEMS

The summer school is promoted by three EU Universities:

- University of Tuscia, Viterbo, Italy;
- Swedish University of Agricultural Sciences, Uppsala, Sweden;
- University of Natural Resources and Life Sciences, Wien, Austria.

These institutions have come together to provide Bachelor and Master's students an opportunity to acquire an in-depth knowledge of theoretical and practical issues related to the sustainability of food systems. Major thematic topics reflect the four-pillar approach of the Farm-to-Fork EU strategy, thus combining sustainability of production, food processing and distribution, sustainable consumption styles and prevention of food waste.

5TH – 16TH JULY 2021

PIEVE TESINO - ITALY

Deadline for applications **30TH April 2021**

The summer school will be held at the UNITUS Alpine Studies Centre, located in the small village of **Pieve Tesino**, in the mountains of Trentino, Italy. The summer school will be residential both for students and for lecturers, thus being a full experience of discussion and networking in the beautiful environment of Trentino.
